About the Faculty Development Program

Data science is a multi-disciplinary field that uses scientific methods, processes, algorithms, and systems to extract knowledge and insights from structured and unstructured data. Data Science is a current industry and academia demand. Demand for data scientists crosses all industries as employers scramble to harness the power of data analytics to personalize their products, minimize risk, and expand into new & innovative ways. The participants will be trained with a hands-on approach in order to have an in-depth insight into the domain of Data Sciences and expose them to Feasibility & future scope. This Hybrid FDP is devoted to addressing the need to enhance the knowledge about the latest development pertaining to Data Science at Large. The whole course will be handled by academicians and industry experts.

Guidelines

Eligible Participants: The program is open to the faculty of engineering colleges, MCA, MBA colleges, and other allied disciplines. Industry personnel working in the concerned/allied discipline can also can attend.

Accommodation and Food: No accommodation will be provided. Working lunch and snacks will be served during the session (all 5 days).
