

## NITTE MEENAKSHI INSTITUTE OF TECHNOLOGY

---

9-April-2020

Dear Parent,

I hope that you and your family are keeping well in these unusual times.

We expect you have seen our home page for my first message dated 30-March. This is my second message to you. In this message, I merely wish to highlight that the supplementary semester is likely to be shortened. We, therefore, urge your son/daughter to refer to notes and study material from previous semesters in order to prepare for subjects where he/she may have failed. Early preparation in these subjects will improve the chances of promotion. Early preparation should also reduce the number of subjects being “carried forward’ to the next year.

Also, please refer to our college website for official updates.

Wishing you the best,

Yours Sincerely,

PRINCIPAL NMIT
